UNIVERSITY OF CALIFORNIA, SANTA CRUZ
DEPARTMENT OF EARTH AND PLANETARY SCIENCES
Assistant Professor in Geophysics

The [Department of Earth and Planetary Sciences](#) at the University of California, Santa Cruz (UCSC) invites applications for a tenure track faculty position in solid Earth geophysics. We are especially interested in applicants who utilize modern data collection and analysis tools theory and/or numerical modeling to investigate crustal or deep Earth processes. Fields of interest include, but are not limited to, geodesy, geodynamics, physical volcanology, and structural seismology.

The successful candidate will develop a leading edge, externally funded research program, have a strong commitment to mentoring and teaching graduate and undergraduate students, and interact with a diverse UCSC community of Earth, Atmospheric, Planetary, and Ocean scientists. This position will complement existing expertise in earthquake physics, seismology, mineral physics, surface processes, glaciology, geochemistry, planetary sciences, and hydrogeology. The successful candidate must be able to work with students, faculty and staff from a wide range of social and cultural backgrounds. We welcome candidates who understand the barriers facing women and minorities who are underrepresented in higher education careers (as evidenced by life experiences and educational background), and who have experience in equity and diversity with respect to teaching, mentoring, research, life experiences, or service towards building an equitable and diverse scholarly environment.
