

TEXAS, SAN MARCOS.

The Department of Geography at Texas State University invites applications for a **tenured/tenure-track** position to begin **Fall 2020** at the **Full or Associate Professor** level in **Environmental or Physical Geography**. We seek individuals with exceptional records as scholars. The position includes maintaining an active research agenda, teaching at graduate and undergraduate levels, and advising Masters/PhD students.

Required Qualifications:

- A PhD degree in Geography, Earth/Environmental Sciences, Natural Resources, or a related field;
- An outstanding publication record;
- A significant record of successful grant acquisition and management;
- Experience in supervising or mentoring graduate students.

Preferred Qualifications:

- Demonstrated record of applied research in environmental management or natural resources use;
- Demonstrated expertise in modeling that integrates environmental data and geospatial analyses to understand biophysical processes;
- Experience in teaching at undergraduate and /or graduate levels;
- Experience in mentoring doctoral students.

Only applications submitted through the Texas State University website will be accepted and considered (<https://jobs.hr.txstate.edu/postings/25265>). To ensure full consideration, please submit the materials listed below by November 1, 2019:

- 1) a letter of application outlining the applicant's professional experience and career goals that meet the required and preferred qualifications as stated above;
- 2) an up-to-date curriculum vitae;
- 3) the name, e-mail address, and telephone number of three references. Please provide the names and email addresses for your references towards the end of your letter of application.

For inquiries, please e-mail Dr. Jason Julian, chair of the Search Committee, at Jason.Julian@txstate.edu and indicate "Full or Associate Professor Position" in the subject line of all correspondence.

The Department of Geography at Texas State University has 38 full-time faculty members, over 500 undergraduate majors in BA and BS programs and over 120 graduate students in our Master of Science (MS), Master of Applied Geography (MAG), and PhD programs in geography, geographic education, and geographic information science. The Department of Geography is part of the College of Liberal Arts.
