

UVISIT

University visits in
Scientific Interaction
and Teaching.

UCAR's President's
Office sponsors UVISIT
to enable NCAR/UCP
scientist and engineers
to spend time in
residence at US
universities for
collaborative research,
teaching, lectureships,
workshops, etc. The
emphasis is on time-in-
residence at UCAR
member universities
and academic affiliates.
UVISIT supplements the
ASP Faculty Fellowship
Program.

FREE TEACHING METHODS WORKSHOPS

with
Laura Border, Director
Lorine Giangola, Lead Coordinator
CU Graduate Teaching Program

Teaching Methods Workshop Level 1

April 14, 2014, 9:00 am-2:00 pm
CG1-S Auditorium

This teacher preparation workshop is part one of a teaching methods workshop series providing participants key best practices and strategies to be effective in the classroom environment. Topics: Understanding Learning and Processing Styles, Structuring an Interactive Class Session; Reviewing a Problem-Oriented Framework to Foster Interaction; and Learning to apply Blooms Interactive Problem Solving Model. Open to anyone interested in this topic; and especially valuable to those applying for UVISIT appointments. For optimum benefit, participation in all sessions in the series is recommended.

Teaching Methods Workshop Level 2

April 15, 2014, 9:00 am-2:00 pm
CG1-S Auditorium

This teacher preparation workshop is part two of a teaching methods workshop series providing participants key best practices and strategies to be effective in the classroom environment. Topics: Interacting effectively with different Personalities in the Classroom; Leveraging Diversity in the Classroom; Learning Course and Syllabus Planning tips and techniques. Completion of Teaching Methods Workshop Level 1 or equivalent knowledge. Especially valuable to those applying for UVISIT appointments. For optimum benefit, participation in all sessions in the series is recommended.
