

## Two Post-Doctoral Positions for Research on DYNAMO observations and modeling at University of Miami

The Rosenstiel School of Marine and Atmospheric Science (RSMAS) at the University of Miami invites applications for two post-doctoral positions. We are seeking highly motivated postdoctoral research associates with strong backgrounds in data analysis and numerical modeling of tropical convective systems and/or tropical coupled atmosphere-ocean system. Successful candidates are expected to join a research team to use observations collected from the DYNAMO field campaign in evaluation and development of regional and global weather and climate models. Application should include a curriculum vitae, a cover letter stating research interest, and names, affiliations, and email addresses of three professional references. Selection processes will start from September 28, 2015. The positions will be kept open until filled. The starting dates of the positions are expected to be in fall 2015 but negotiable. The appointment will be initially one year, renewable depending on the performance. Salaries will commensurate with experience. Applications or requests for more information should be directed to: Prof. Chidong Zhang, RSMAS, University of Miami, 4600 Rickenbacker Causeway, Miami, FL 33149-1098 (Tel 305-421-4042, Email czhang@rsmas.miami.edu).

University of Miami is an equal opportunity/affirmative action employer.
