Push to Excel; Prepare to Succeed.

October 2015

Dear Community Member,

The Colorado STEM Academy will be hosting its annual science fair at our campus on Friday January 15<sup>th</sup>, 2016. The Colorado STEM Academy is a 3-8 innovation school located in Westminster serving 300 families. All students in grades 3-8 are required to participate thus producing about 300 projects in need of judging.

We are calling upon community members in **science, technology, engineering, math and education-related fields** to judge projects. The Colorado STEM Academy Science Fair Committee will provide judges with a light breakfast/lunch and will have snacks available throughout the day.

Judges should plan to attend one of the two Judge's Information and Training Sessions (see below) in which committee members will meet with the judges to review the judging sheet and procedures. Time will also be given to preview student projects prior to judging. Throughout the day, judges will not only review each project but will also interview each student.

The committee's goal is to recruit a minimum of 30 judges. We hope you will take this opportunity to join us and get to know our students and school.

If you are interested in judging for our science exposition, please fill out the information below and return it to Andrea Schmuttermair. Alternatively, you may fill out the online Google Form at: <http://goo.gl/forms/OFeJJxN3Q9>

Sincerely,  
Andrea Schmuttermair
