

Are you a scientist interested in engaging the community in your research?

Then register to attend the **FREE**
Engage Scientist Series lecture & workshop!

March 6, 2019

Are you an Early Career scientist grappling with the question how to make your research usable?

Through the talk and panel discussion, we will explore different pathways to usable science, look at practical considerations and pitfalls, and learn from some of the researchers who have made usable science a major part of their careers.

Public lecture will focus on fostering community dialogue.

Workshop topics :

- For graduate students and early-career scientists to consider the real-world potential for making their own research more usable now and throughout their careers

Dinner will be provided for workshop participants.

Public Lecture:

Mar. 6 from 4:00-5:00pm at **CIRES Auditorium (Ekeley, Room 338)**

Graduate student & post doc workshop:

Mar. 6 from 5:30-7:00pm at **CIRES Fellows Room (Ekeley, Room S274)**
