

2019 | NCAR EXPLORER SERIES

380 MILES FROM EAST TO WEST CELEBRATING 40 YEARS OF COLORADO PHOTOGRAPHY BY JOHN FIELDER

LECTURE DETAILS:

The state of Colorado has a diverse landscape that spans from the Great Plains to the Foothills of the Rockies, to the highest peaks along the Continental Divide and the Western Slope river canyons. In this special NCAR Explorer Series lecture, Colorado photographer John Fielder will guide us through 66 million acres of Colorado scenery. You will get a personal Fielder tour of Colorado's most beautiful private ranches, our most sublime public lands in both mountain and canyon country, as well as the best places we enjoy right in our own backyards. Historical perspectives from the Jackson/Fielder project, amazing stories, and glorious music will also be included.

JOIN US
