

**Research project manager for an FP7 project on Transport related Air Pollution and Health impacts - Integrated Methodologies for Assessing Particulate Matter (TRANSPHORM)**

**Ref: 001882**

Starting salary up to: £31671 (initially available for 3 years with possibility of extension)

You will be a high achieving research scientist with the drive and ambition to manage a major international project and pursue frontier research in the area of air quality and health. The project consists of an international team of scientists from 21 European organisations. As part of your duties you will be responsible for the day to day management of the project and actively undertake scientific research on air borne particulate matter and the associated impacts on local to regional air quality and health. You must have demonstrable project management experience involving multiple interdisciplinary partners and have at least some experience of working on European funded Framework Programme projects.

**Closing Date: Friday 19 November 2010**

For informal discussions please contact Professor Ranjeet S Sokhi, Centre for Atmospheric and Instrumentation Research (CAIR) Tel: +44 (0) 1707 284520 Email: [r.s.sokhi@herts.ac.uk](mailto:r.s.sokhi@herts.ac.uk). Further information can be found on the following links <http://www.transphorm.eu> and <http://strc.herts.ac.uk/cair>.

Please quote the above reference when applying. The post is available immediately and interviews will be held soon after the closing date. Please include your full CV (with contact details of three referees).

You can apply for the above posts online at <http://www.herts.ac.uk/jobs/home.cfm> (go to Research vacancies). Further details are available from Human Resources, telephone (01707) 284802 (24-hour voicemail) quoting the relevant reference number. The University is committed to Promoting Equal Opportunities.
