

# OCEANUS

ocean and coastal **research experiences**  
for undergraduates

May 31<sup>st</sup> – August 6<sup>th</sup>, 2021

## What is OCEANUS?

OCEANUS is an interdisciplinary research program that advances scientific understandings of coastal system sustainability. Funded by the National Science Foundation (Award#1950910), OCEANUS invites talented students from diverse backgrounds to participate in a 10-week immersive online research experience.

## Student Benefits:

- Enhance scientific research and communication skills through high-impact learning and hands-on training
- Build social capital through the Aggie Network (<http://www.aggienetwork.com>)
- Gain tools to navigate the academic pipeline
- \$6,000 summer stipend
