Presentation

As part of the 4th edition of its "Equality Grant", the Faculty of Geosciences and the Environment is opening a position of postdoctoral researcher.

Information

Starting date:	October 1, 2024 (ou à convenir)
Contract:	1 year, renewable for 2 years, total 3 years
Activity rate:	60% à 100% (to be agreed)
Place of work:	Université de Lausanne

Job description

The hired person will conduct their own research with the aim of advancing their academic career. The position is offered at the first assistant (premiere assistante or premier assistant) level and needs to be supported by a member of the faculty.

At least 90% of the activity rate will be dedicated to carrying out personal research work while a maximum of 10% will be devoted to teaching or administrative tasks (e.g. committees). In addition to an attractive salary, the position includes funding of 4'000 CHF/year to support research and conference costs.

Profile:

Priority will be given to researchers who have had to reduce or interrupt their research activities significantly because of their family situation (e.g. parenthood, carer). Candidates must hold a doctorate and propose a research project that fits within the realm of the Faculty. Your application should demonstrate that you have the potential to pursue an academic career and will include a project and a three-year research plan in line with this objective.

Advantages:

A pleasant working environment in a multicultural and diverse academic environment. Continuing education opportunities, a wide range of activities and other benefits. For more information, visit www.unil.ch/carrieres

Further information :

For information on the research areas and on the professors of the Faculty, please visit www.unil.ch/gse and the websites of the respective institutes. For any further information, please contact: niklas.linde@unil.ch

Application :

Deadline : May 20th 2024

Candidates are asked to send us, via the online system, a complete file in PDF format containing :

- motivation letter
- research project for the next 3 years (2 pages)
- justification explaining the reduction or interruption of their research activities due to their family situation
- curriculum vitae
- diversity statement (max 1 page)
- Phd degree
- list of publications and two publications in PDF format
- letter of support from a member of faculty (prof/lecturer)
- contact details for two referees

For more details and to apply, please go to <https://bit.ly/3JobqIV>. Incomplete or late registrations will not be considered.
