

University of Vermont  
Gund Institute for Environment

**Funded PhD Opportunities**

The [Gund Institute for Environment](#) at the [University of Vermont](#) (UVM) seeks exceptional PhD applicants to conduct interdisciplinary research on global environmental challenges beginning in fall 2025. Applications are due January 5, 2025.

The Gund Institute is a research center dedicated to understanding and tackling the world's most critical environmental challenges, where over 250 faculty, global affiliates, postdocs, and graduate students collaborate widely to understand interactions among ecological, social, and economic systems.

Driven by the belief that research should inspire action, we explore environmental issues at the interface of five pressing research themes—climate solutions, health and well-being, sustainable agriculture, resilient communities, and equity and justice—in partnership with government, industry, and broader society.

We are committed to ensuring an inclusive environment where diverse voices and perspectives are active and welcome. We encourage applicants who bring diverse perspectives to our community.

Students will receive up to four years of funding, including an annual stipend of \$35,000, plus tuition. All students are eligible for health insurance and additional funds for conference travel and research costs.
