

NCAR | UCAR Walter Orr Roberts Distinguished Lecture 2021

The Misinformation Battle: Challenges and Solutions

Dr. Marcia McNutt, president of the National Academy of Sciences

Misinformation is one of the most confounding barriers to the adoption and application of sound science for the benefit of society. Given the high stakes in fighting misinformation, scientists must rise to this challenge by learning from groups and organizations that have established reputations for trust with the public.

The lecture will be held virtually

Date: September 24th, 2021

Time: 12PM MDT

Zoom link for lecture: <https://operations.ucar.edu/live-WOR>

Slido link to submit questions: <https://app.sli.do/event/tayuqwjm>

The Walter Orr Roberts Distinguished Lecture Series is an annual lecture given as part of NCAR|UCAR's public outreach to the broader community, made possible through private donations.
