

MITTEN-CI Field Campaign – PhD Opportunity

Available Starting Summer 2024

Maritime to Inland Transitions Towards ENvironments for Convection Initiation

A Graduate Research Assistantship is available at Central Michigan University to participate in MITTEN-CI and conduct research on destabilization and convection initiation in coastal regions based on analysis of the MITTEN-CI dataset.

Advisor: Dr. Jason Keeler (jason.keeler@cmich.edu) – I encourage interested students to contact me!

M.S. and prior fieldwork experience preferred, but not required.

The selected GRA will assist with mobile mesonet operation and radiosonde launches and will have the opportunity to collaborate with mobile radar, lidar, flux tower, and Uncrewed Aircraft Systems (UAS) teams.
